INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference 120701-2020	FOR FURTHER see Form PCT/ISA/220 ACTION as well as, where applicable, item 5 below.						
International application No. PCT/US04/20454	International filing date (day/month/year) 25 June 2004 (25.06.2004)						
Applicant GENECIA CORPORATION	<u></u>						
	n prepared by this International Searching Aug transmitted to the International Bureau.	uthority and is transmitted to the applicant					
This international search report consists It is also accompanied	of a total of sheets. I by a copy of each prior art document cited	in this report.					
language in which it was filed, u	international search was carried out on the bas nless otherwise indicated under this item.						
The international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).							
	de and/or amino acid sequence disclosed in the	he international application, see Box No. I.					
	unsearchable (See Box No. II)						
 Unity of invention is lackin With regard to the title, 	g (See Box No. III)						
the text is approved as subm	itted by the applicant.						
	by this Authority to read as follows:	Ì					
. Wahan a kana a kana a							
 With regard to the abstract, the text is approved as submit 	trod by the smallers.						
	• • • •						
may, within one month from	according to Rule 38.2(b), by this Authority a the date of mailing of this international search	s it appears in Box No. IV. The applicant report, submit comments to this Authority.					
With regard to the drawings,							
a. the figure of the drawings to be published with the abstract is Figure No							
as suggested by the a		_					
	uthority, because the applicant failed to suggest	_					
N 21	ithority, because this figure better characterize	s the invention.					
b. X none of the figures is to be published with the abstract.

--------------	---------------	--------

International application No.

PCT/US04/2043.

Box No. I Nucleotide and/or amino acid sequence(s) (Continuation of item 1.b of the first sheet)							
	regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed tion, the international search was carried out on the basis of: type of material						
	a sequence listing						
	table(s) related to the sequence listing						
b.	format of material						
•	in written format						
	in computer readable form						
c.	time of filing/furnishing						
	contained in the international application as filed						
	filed together with the international application in computer readable form						
	furnished subsequently to this Authority for the purposes of search						
2.	In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.						
3.	Additional comments:
